

Andrew Sibbald School

School Digital Citizenship Plan 2025 2026

Andrew Sibbald School is a K – 5 school serving the communities of Lake Bonavista and Lake Bonavista Downs, with a diverse community representing over 300 students comprised of mostly English-speaking students, and some unique needs supported through Individual Program Plans. Our school continues to focus on a School Development Plan where students improve their writing skills across a range of disciplines in the 2025-2026 school year.

Students at Andrew Sibbald School have access to both iPads and Chromebooks. This technology can be found on portable carts with several pieces of technology at our school site. Students have regular opportunities to work with these devices and approved software applications. We have an admirable use policy to help guide students on the safe use of technology, to meet academic outcomes. We are committed to helping students prepare for a changing world and be equipped with the necessary technology skills to apply to their lives.

School Digital Citizenship Plan						Progress		
Long Term Goal (e.g. spanning 8-10 months)	Competency (may be chosen from the CBE DC Competencies)	Short Term Goals (in support of the long term goal)	Outcomes	Activities & Resources	Measures	November	January	June
